THE ENJOY EVENTS GROUP

HISTORY OF OUR COMPANY

WHO ARE WE ?

OUR HISTORY

In Alsace, Alexandre BUNZLI and Yanel DEMANGEAT created ENJOY EVENTS in 2008. The company provides technical services in sound and light, and allows them to design the atmosphere and the scenery they want for their own events as well as for external organizations.

In 2012, they diversify their services by developing the field of the design of modular stands in aluminium joinery, intended for exhibitions, which will quickly become the main activity of the company.

At the beginning of 2018, ENJOY EVENTS absorbs its Vosges competitor DMENTIEL to form the ENJOY EVENTS GROUP. Alone we move fast, but together we go further: such is the vision of the group.

From now on, the Enjoy Events Group markets event services under the Dmentiel brand and stand design under the Enjoy Events brand.

Today, the network and the possibilities continue to expand, beyond the Great East and its borders.

NEW SERVICES

Since 2019, the Enjoy Events group has opened within its premises its own large format printing shop and its wood and aluminum joinery in order to ensure its complete autonomy.

OUR KNOW-HOW

BOOTH DESIGN

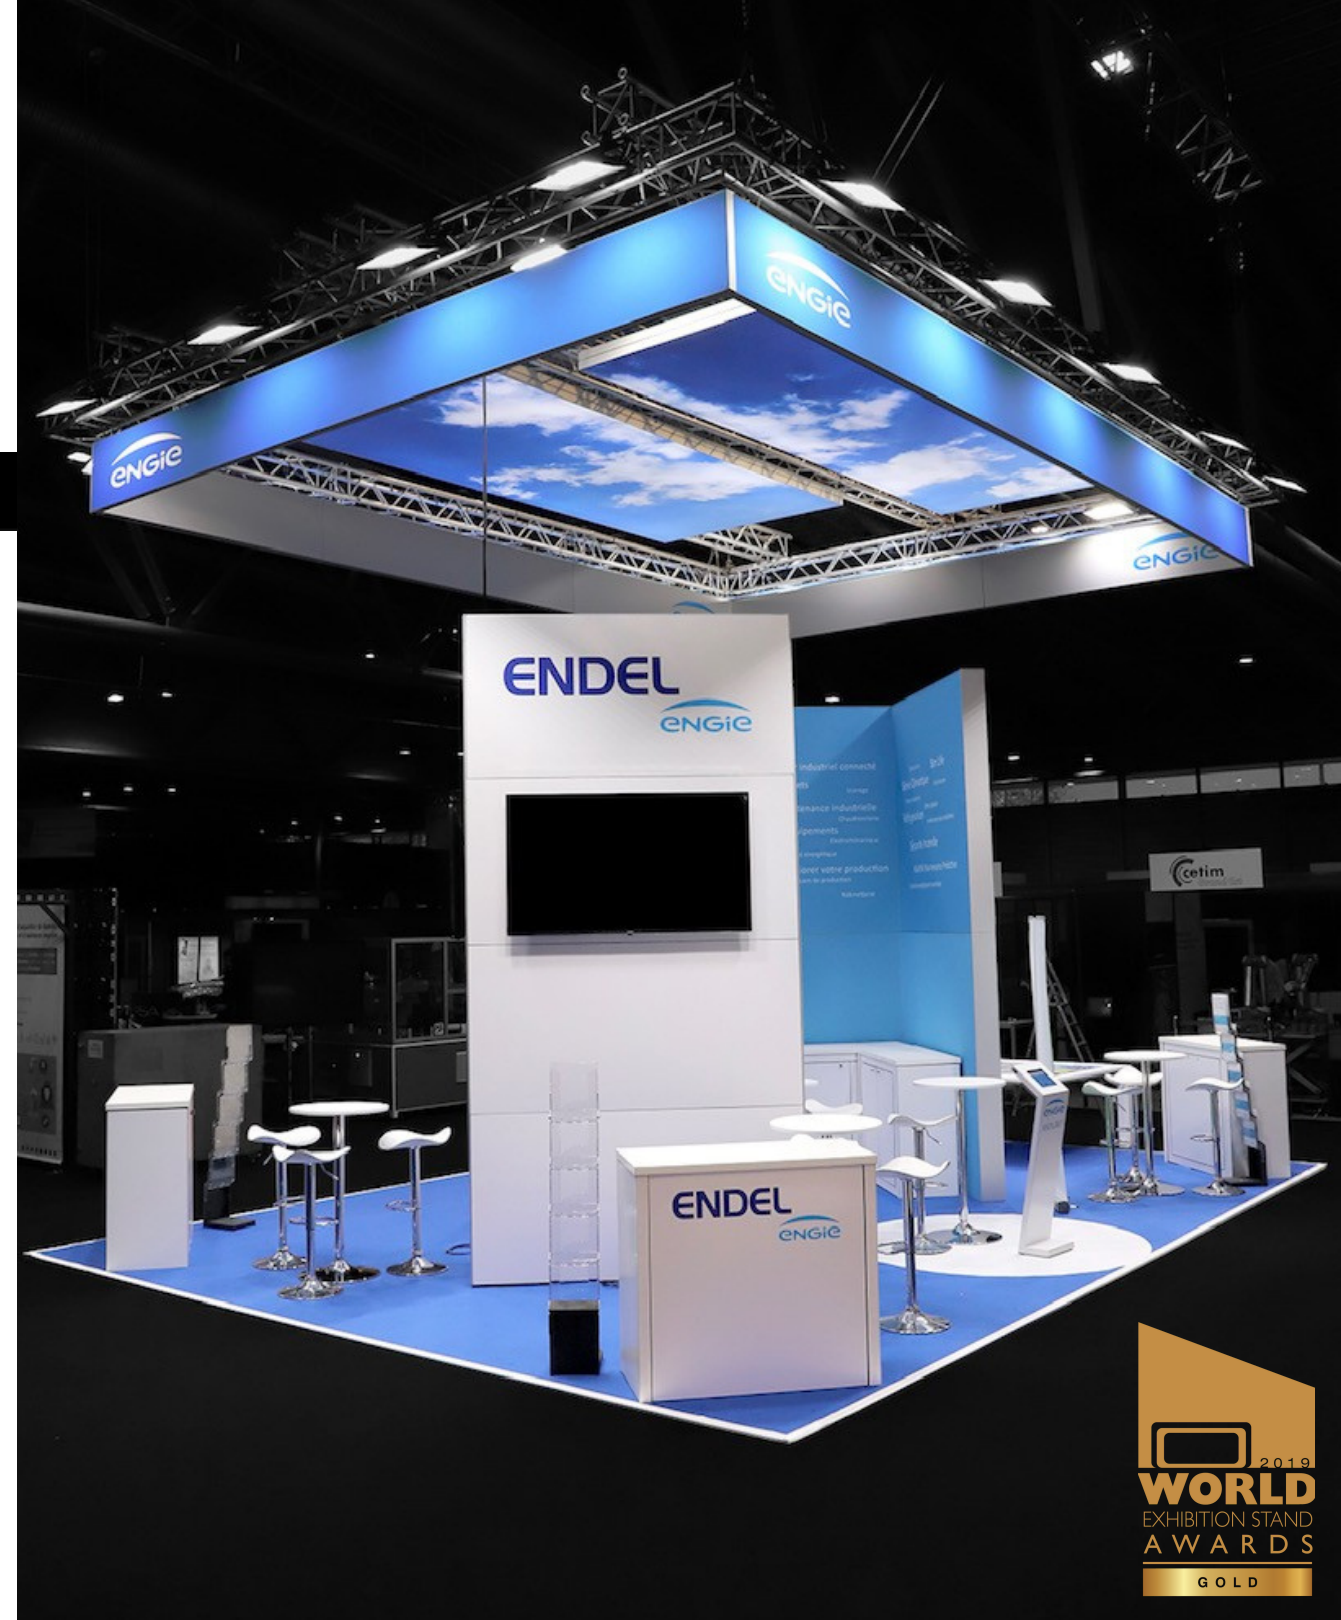

Our goal is to create a stand that reflects the image of our client : **unique**

At a trade show or exhibition, the stand reflects and represents the company, so it is essential to make an excellent first impression on potential customers.

We design and produce custom-made stands by mastering the from the first stroke of the pen to the finishing touches to the finishing touches on site.

Our 3D design office allows us to elaborate a stand from A to Z, by projecting and studying the possibilities related to a project. Combining modernity, sobriety and design, a stand made by us will allow you to stand out for sure.

Enjoy Events won a gold medal, a silver medal and 3 bronze medals during the different editions of the of the World Exhibition Stand Awards.

ECO-FRIENDLY

TO MAKE EVENT, IT IS TO PASS ON EMOTIONS, BUT ALSO TO TAKE CARE OF THE PLANET

VEHICLE

We also have an electric terminal to recharge our hybrid vehicles, which allows the company to divide by four its fuel consumption.

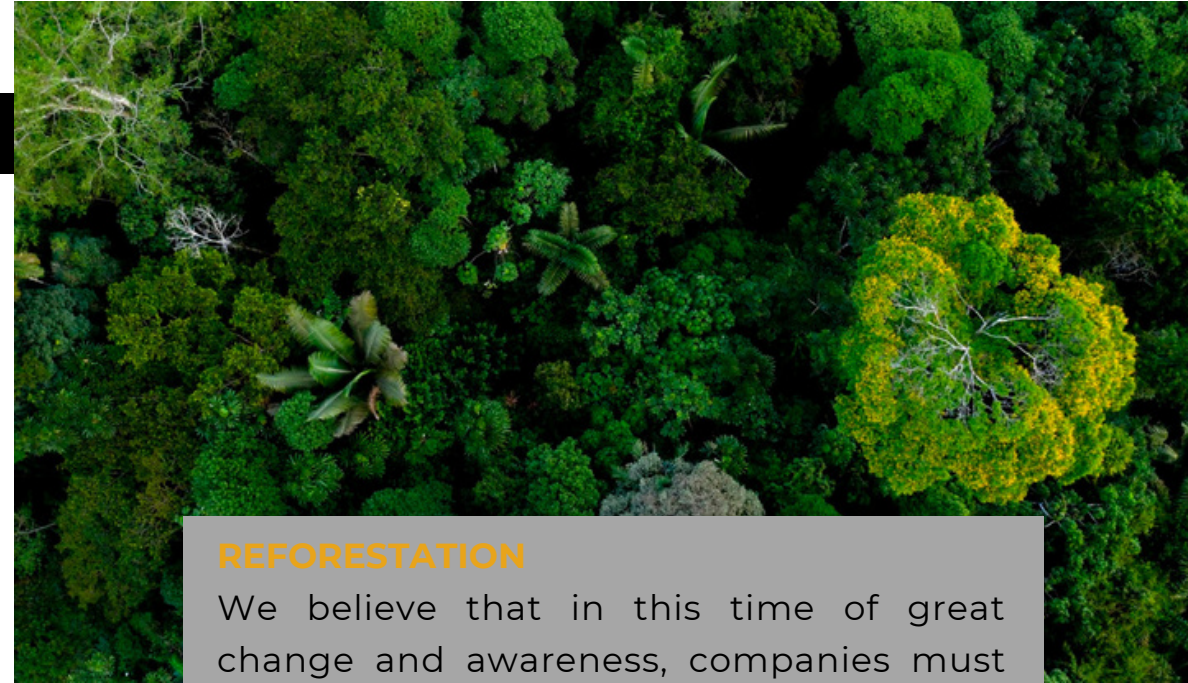

We are thus part of a more environmentally friendly approach.

THE SOLAR ENERGY

We have 160m² of solar panels installed on the roofs of our premises, with a power of 36KW.

We produce more electricity than we consume annually.

REFORESTATION

We believe that in this time of great change and awareness, companies must lead by example in the way they work, prosper and live.

The Groupe Enjoy Events sorts its waste, and benefits from the ECO2 label by participating in a reforestation program in Peru, in order to offset its carbon footprint as much as possible.

GEE

GROUPE
ENJOY EVENTS

OUR COMMITMENT

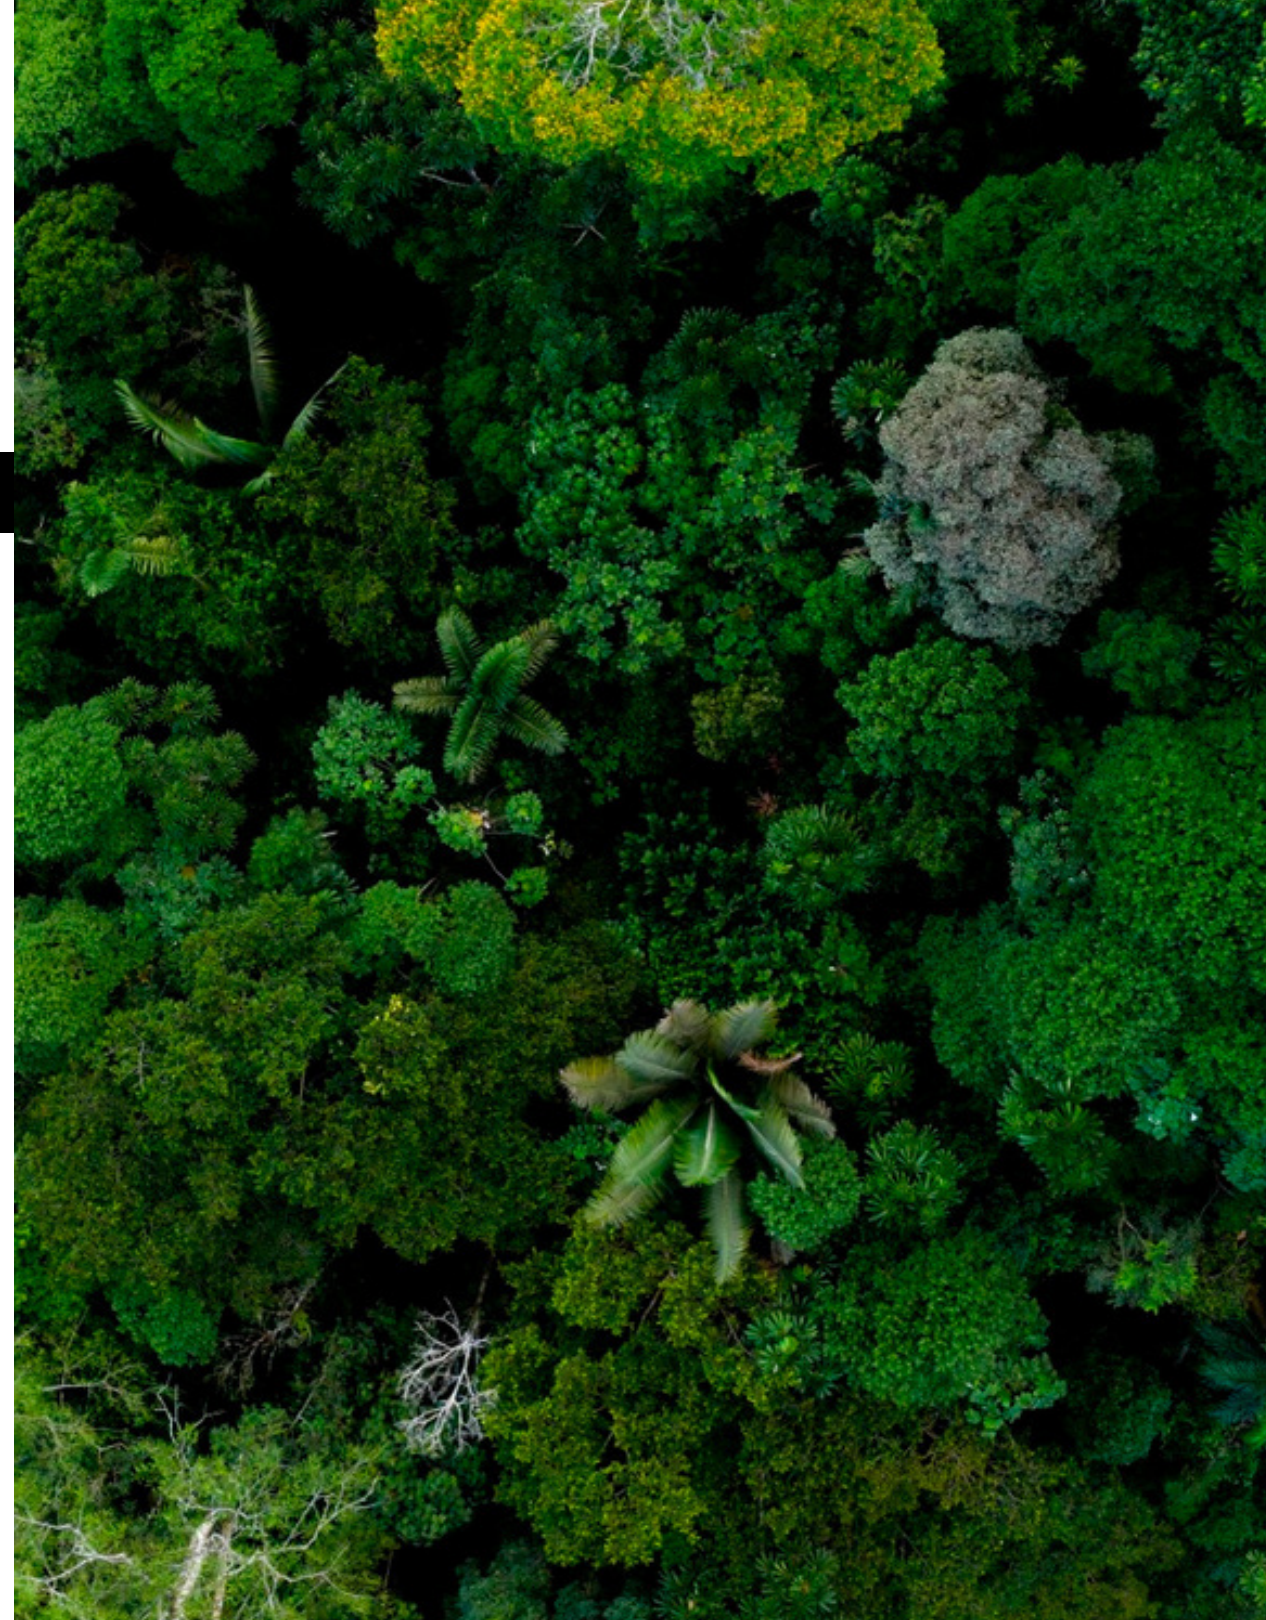

Because being an event professional means **being respectful of the environment and nature.**

We are convinced that in this period of great changes and awareness, companies must set an example in the way they work, prosper and live.

Ecology is one of the major issues of our society, and it is essential that everyone makes the necessary efforts so that everyone wins.

The ENJOY EVENTS GROUP has chosen to work with aluminium joinery, so that the framework of its stands never has to be thrown away.

The coverings of these same stands are made of printed canvas or panels that are also entirely reusable. Our lighting system is composed of LEDs in order to limit the consumption of electricity and the production of waste.

SPONSORING

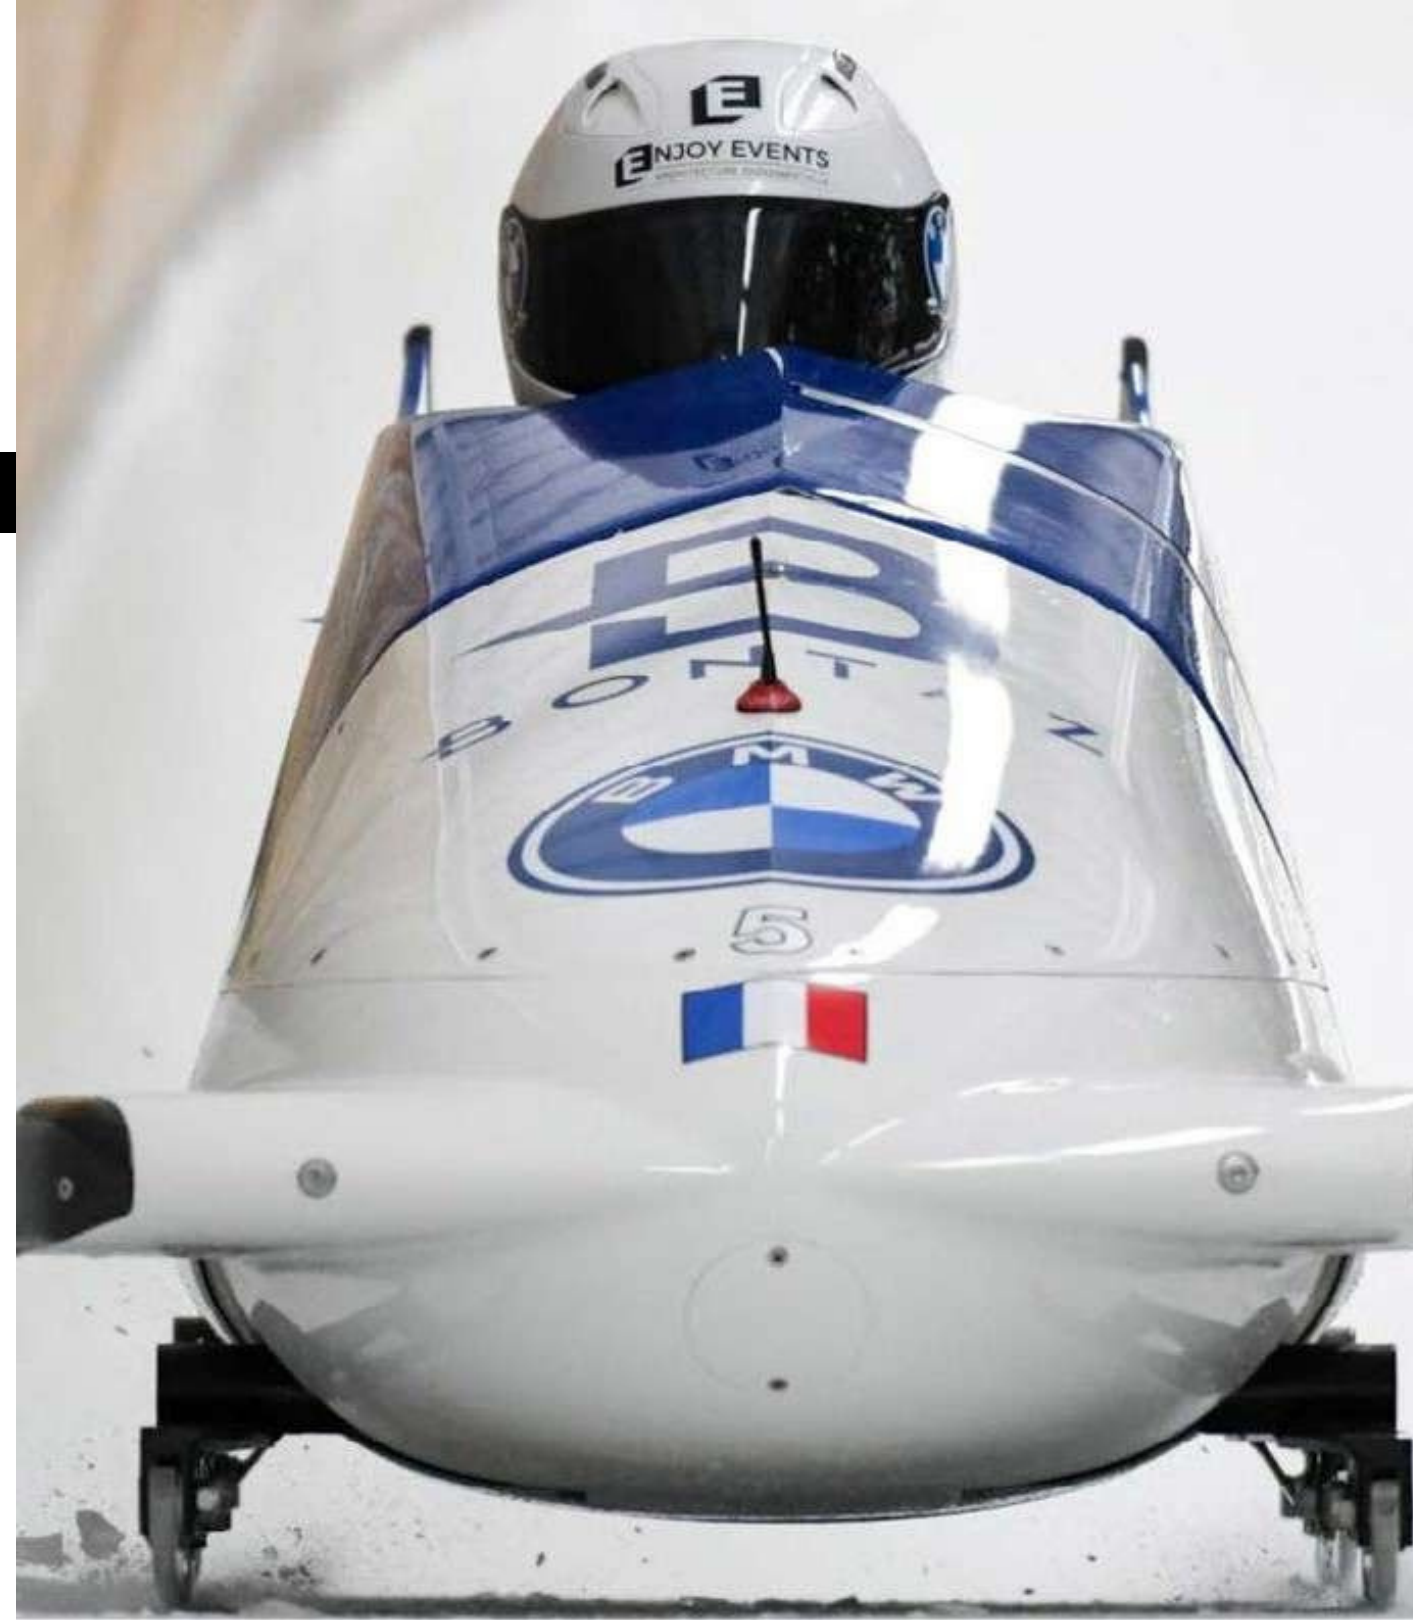

ENJOY EVENTS *feels involved* in the daily lives of those around it.

Enjoy Events choses to support and accompany Romain HEINRICH, bobsleigh pilot (2-up and 4-up) and captain of the French team.

By sponsoring the Alsatian during World Cup and European events, we accompanied him all the way to the Olympic Games in 2018.

In February 2019, he thrilled us by winning the silver medal in the World Cup. We're proud of his achievements and ambitions!

Because it's important for us to support those who want to improve, surpass themselves and develop their skills, at every level.
